

Robert E. Seyfarth, Architect Project Index

updated; Jan. 20, 2012

The following is a partial list of buildings designed by Robert E. Seyfarth. It was compiled from lists created by several people working independently on different projects. It's likely to be incomplete and some entries may be inaccurate. This list is organized by location and street address starting with Chicago and its suburbs, and then followed by other areas.

Photos of some of these houses can be seen at www.robertseyfartharchitect.com.

The Chicago History Museum research center archives have 70 sets of drawings for projects that date from 1932 onwards. 47 of these have been included in this list. (They can be recognized by the inclusion in the listing of the archive index number which is in the format; "RS-NC1")

Address numbers with a double asterisk (000**) indicate an historic address for which the current number is unknown.

Chicago, Suburbs and Vicinity

Barrington

V. T. Norton house, 1939, RS-NC11, not built
Edwin C. Tubey house, address unknown, 1940, RS-NC18
